

Yancey Water Supply Corporation

November 27, 2024

Ref: Customer Notification of Rate Increases

Dear Member:

Yancey Water Supply Corporation is committed to providing our members with safe and affordable potable water. The base rate has not been increased since 2012, and water rates have not been increased in 19 years, with this in mind Yancey Water Supply Corporation will be increasing the base rate by 3%, and water rates each year for the next three years. Reflected below is how the base rate will increase each year for the next three years.

Base Rate	
BASE NOW	.90 TO BASE
5/8"	2025
\$30.00	\$30.90

Stage Restrictions will have different rates associated. A rate sheet for Stage 1 and 2, and another for Stage 3, 4, and higher are attached. As the stages go up, the restriction costs will go up. The average water user will be impacted very minimally, while a customer using larger quantities of water will be impacted considerably. This rate increase will be effective on January 1, 2025.

Sincerely,

Scooter Mangold
General Manager

Yancey Water Supply Corporation
